

DOGMA BREWERY CATALOG

BREWED
IN SERBIA

Two childhood friends, one from the food technology field and the other from economy & marketing, opened the brewery that became successful - sounds like a perfect pattern for a craft beer story? Because that is just how it is: it is a true story about two friends full of passion for creation. Inside and outside of a beer glass. Since the day of our first brew, we've been sharing the same values. As a result, we've created the fastest-growing Serbian craft brewery, the brewery that became Rate Beer's Top Serbian brewery in 2018 - our breakthrough year. Today, we are proud that Dogma has become the biggest craft beer exporter from Serbia.

Our first brew came into the Serbian market on the 20th of July 2016. Five years later, Dogma Brewery became a synonym for the highest quality brews and a company with direct marketing and brand development strategies. All the numbers say that we have increased our capacity three times, up to 6000 HL per year, due to increased sales in Serbia and around the world.

DOGMA BY NUMBERS

YEARS

68 BEERS

31 COUNTRIES

15 TONS OF HOPS

410 TONS OF MALT

3.000.000 CANS

1.600.000 LITERS OF BEER

HOPTOPOD

IPA 6.5% vol.

Our flagship IPA is going to burst your senses! A mixture of base and light caramel malts gives it a light and dry body. High quality hops from Yakima Valley add intensive tropical and fruity aromas into the bargain. Every true fan of an authentic & old school IPA will find this hoppy monster to be top-notch. Feeling its purity in every sip, it is near impossible to escape its grasp without permission.

INGREDIENTS

Water, barley malt, hops, yeast.

CAN 330ml

CAN 500ml

POLYKEG 30L
S-TYPE

SVETIONIK

PALE ALE 5.5% VOL.

Extremely drinkable Pale Ale, which can truly quench your thirst! Light bodied with a golden color and moderate bitterness thanks to the clean and fresh hoppy aroma coming from American and German hops. Refreshing flavor originates from hints of mango, tangerine, orange, and grapefruit as a perfect combo. By brewing an "all-day and year-round" beer, it seems that we managed to beautifully align its purpose with its symbolic name, which in Serbian means The Lighthouse!

INGREDIENTS

Water, barley malt, wheat malt, hops, yeast.

New Pils on the Block

German Pilsner 4.7%^{alc.}

Word around town: we have officially brewed our first traditional lager! With a twist! In the craft beer industry, everyone is going back to the roots these days. We absolutely couldn't resist it. Back to basics, it's a thing now. You will not be able to withstand it, too: it's clean and crispy, with a noble, floral, and slightly fruity hop aroma. It is a full-bodied beer, thanks to the traditional pilsner malt with a hop combo: the most popular new German hop - Mandarina Bavaria. There's a New Pils on your block!

INGREDIENTS

Water, barley malt, hops, yeast.

HOPE

HAZY IPA / 6.4 %VOL

While the whole planet was under lockdown and we all got seriously shaken by the crisis, our brewers were not afraid to shake up their recipes! They gave us this glimpse of hope, HOPE that quickly entered our first lineup. Aromas of coconut, tropical fruit, and small melons were brought to us by the superstar among today's hops - SABRO, playing the lead role in the hop mixture. El Dorado, Idaho 7, and Citra are the ones that complete the wave of tropical aromas. Taste the creaminess originating from delicious oat crystal malt, Golden Naked Oats. This HAZY IPA is born out of HOPE for better days, the ones we believe are ahead of us!

INGREDIENTS

Water, barley malt, wheat malt, oat malt, oat flakes, hops, yeast.

Juice it UP

DDH DIPA 8% VOL

Let us introduce you to the craziest tropical fruit and citrus party! This beer is soft but very potent in taste. Tropical aromas obtained by double dry-hopping mean only one: you are going to feel entertained. Hops and malts have danced together for your eyes only: Citra Incognito, Galaxy, Citra, and El Dorado, barley, wheat, and oats. 8% ABV beer is considered high-alcoholic, but no worries, we left room for balance. The world is buzzing about the DDH DIPA beers. We only follow all the crazy wishes of all-meridian beer fans!

INGREDIENTS

Water, barley malt, wheat malt, oat malt, flaked oats, hops, lactose, yeast.

NEW ENGLAND IPA HAZY ROCKET 7.0% VOL

Our first New England IPA launch went high above our primary expectations! As we all know, NEIPA has conquered the world in a short time and for a good reason. It is now a must-have in the portfolio of every respectable brewery on the planet. Responsibility for the specific taste of Hazy Rocket goes to a distinctive yeast strain, a large proportion of oat and wheat flakes, double dry hops, and an unordinary course of the fermentation. Get ready to get fired up by citrusy and dank aromas: we are launching you right into the stratosphere!

INGREDIENTS

Water, barley malt, wheat malt, oat malt, hops, yeast.

MISS QUINCE ALE 5,5% Vol.

Without exaggerating, we can say this beer is one-of-a-kind among Serbian brewers. The idea was to make the unconventional by using conventional: we used quince, famous fruit for producing a well-known Serbian drink - rakija. Our talented team brewed an easy-drinking pale ale which was boosted by adding quince in boiling, whirlpool, and some extra at the very end of fermentation. It is an intriguing and smooth pale ale, ideal for a drinking session. Subtle fruity aroma and moderate bitterness deriving from hops combined with a slightly piquant flavor and heady perfume of a quince will remind you of your grandma's favorite compote!

INGREDIENTS

Water, barley malt, wheat malt, quince, hops, yeast.

ALBEDO

WHITE IPA | 6.5% VOL

Somewhere between the Belgian Wit and the famous Indian Pale Ale, Albedo White IPA hits you right in the middle of your senses! By joining the forces of barley, wheat malts, and wheat flakes, we got a fuller-bodied beer with a smooth & silky mouthfeel. It's been a while since we have devoted our philosophy to hop-forward beers. It is why we have brought together a combination of three old-school US hops - Chinook, Simcoe, and Cascade. Finally, we've enhanced the fruity aroma with a dash of orange peel added to the whirlpool. Take a sip: we promise someone will find a glimmer of a smile in your eyes.

INGREDIENTS

Water, barley malt, wheat malt, wheat flakes, hops, yeast.

CRNA KRAVA

5% VOL

MILK STOUT

The first dark beer we brewed and one of Dogma's little darlings! Its coffee and chocolate notes will leave you seduced for a lifetime. Six special malts, roasted barley, and lactose make it rich with a subtle sweetness reminiscent of whole milk. Some people believe that only seeing a black cow represents good luck, but the truth is: drinking our Black Cow will surely get you luckier. Greet Crna Krava, our best version of a classic island stout!

INGREDIENTS

Water, barley malt, wheat malt, wheat flakes, lactose, hops, yeast.

AYAHUASCA

JUNGLE ALE

6,0%

South American jungle is hiding numerous secrets - and you are about to discover one! Ayahuasca Jungle Ale is a funky beer inspired by shamans but brewed at our rules. It is a ruby-red salute to the loud call of your wild spirits! Potent bitterness, powerful juniper berries, and orange peel freshness added in the whirlpool make a perfectly welcoming combo as you step into the unknown. So catch a deep breath, relax, sip it on and start your inner journey with the liana of the soul!

INGREDIENTS

Water, barley malt, juniper berries, hops, yeast.

Raspberry

MINT SOUR
3.8% vol.

If there is a fruit that Serbia is proud of: it is Raspberry! That's why we implemented it in our beer for the first time back in 2017. and brewed Raspberry Hefeweizen, a wheat beer made with raspberry puree. We have now raised the bar to higher levels and created the perfect refreshment for hot summer days. We refreshed this fruited sour beer with the freshly picked mint leaves! The low ABV and combination with summer cocktail-like aromas are plenty of reasons to enjoy this balmy elixir.

INGREDIENTS

Water, barley malt, wheat malt, raspberry puree, wheat flakes, mint leaves, hops, yeast.

CAN 330ml

POLYKEG 30L
S-TYPE

Raspberry

HEFEWEIZEN

Serbia is one of the biggest producers of raspberries. It was a natural decision to produce a light, fruity and summerish beer mixed with this fruit. Low alcohol percentage with slight acidity from raspberry puree added at the end of the fermentation makes perfect refreshment for the start of summer.

INGREDIENTS

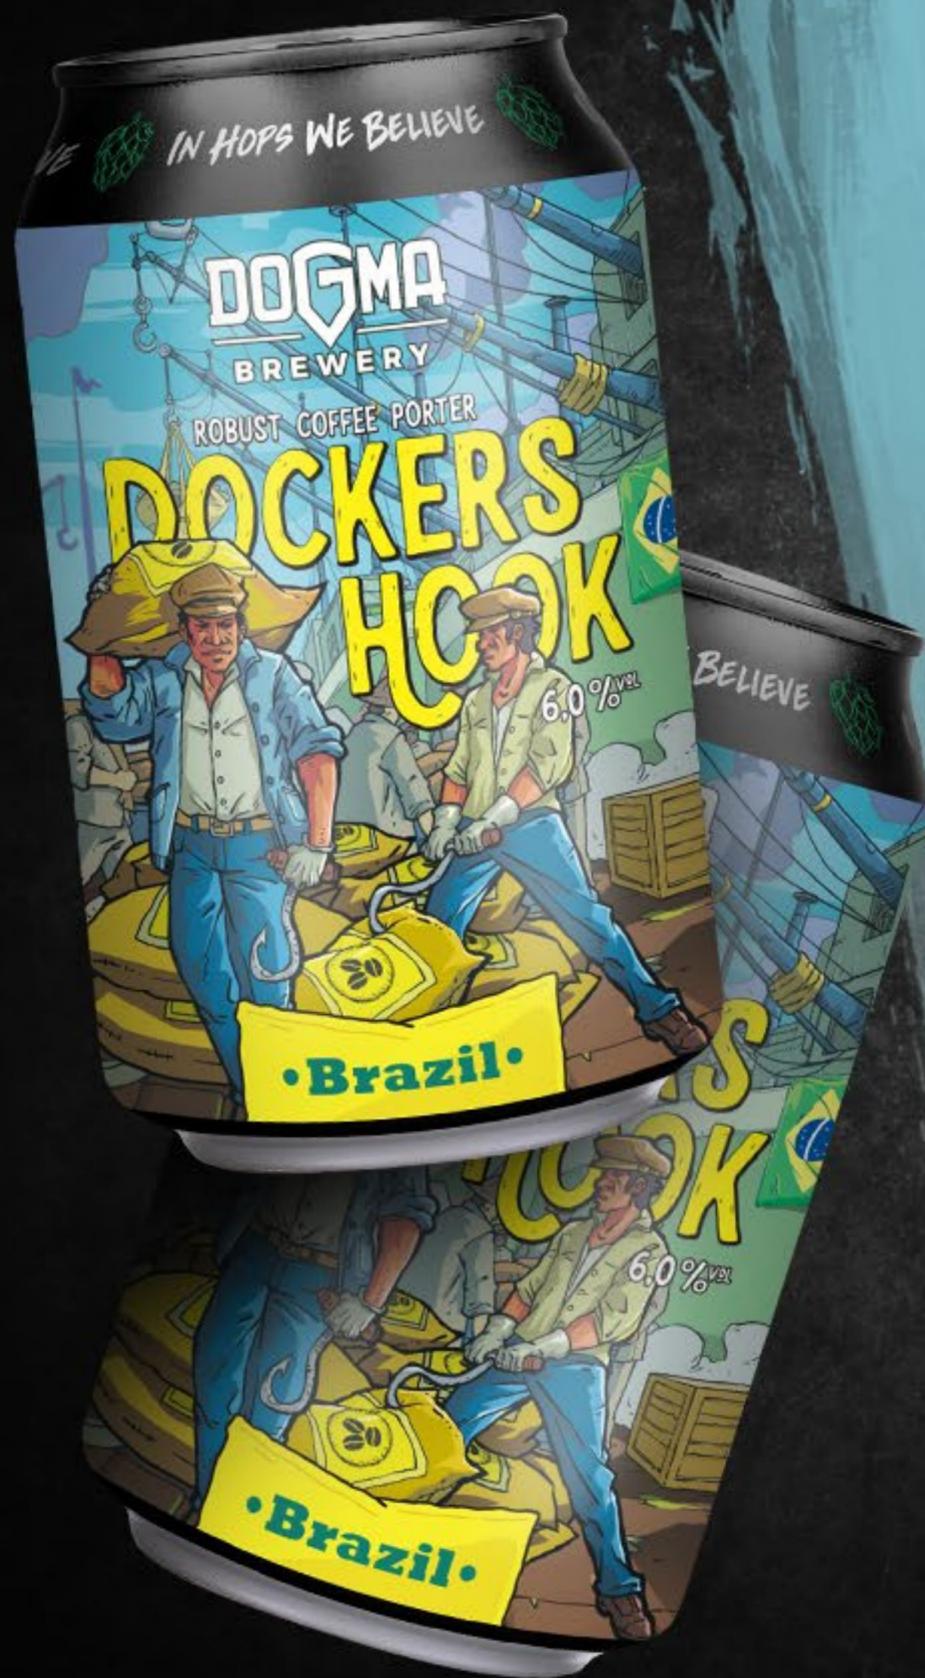

Water, barley malt, wheat malt, hops, yeast, raspberry puree.

ROBUST COFFEE PORTER

DOCKERS HOOK

6.0%^{VOL}

We undeniably like beer, but we usually start the day with a coffee. That is the main reason why we have created this beer, brewing it every year with different varieties of coffees. This year we added hand-roasted Guatemala coffee to this Robust Porter. The previous ones focused on Columbia grains. Docker's Hook brings us a strong aroma of whole bean coffee with layered flavors of special dark malts, caramel, and roasted hazelnuts. All this makes this beer rounded but simultaneously complex enough to reconcile the demands of coffee and dark beer fans.

INGREDIENTS

Water, barley malt, coffee, hops, yeast.

CAN 330ml

Soul Sista ^{3,6% vol.}

BERLINER WEISSE
WITH QUINCE, LIME & LEMONGRASS

Soul Sista is the sour, younger sister of Dogma's widely recognized beer Miss Quince Ale! It's a Berliner Weisse, but a fruity one. We've added quinces in the whirlpool, maximizing the aroma by lime and lemongrass boost only a few days before kegging and canning. Low alcohol sour beer and a fruity refreshment make it the perfect choice for unforgettable soulmate evenings in 2021!

INGREDIENTS

Water, barley malt, wheat malt, quince, lime, lemongrass, hops, yeast.

RUSSIAN IMPERIAL STOUT WITH
CARDAMOM AND COCOA NIBS

COSSACK'S WHIP

9%VOL

Beware! Here comes the: COSSACK'S WHIP, directly from our imperial fermentors! We were inspired by the style of British brewers from the 18th century who made the most intimidating beer of them all - Russian Imperial Stout, exclusively for export to the court of Catherine The Great of Russia. Our Cossack's whip is the new ruler amongst stouts, which rules by its malty character and high ABV. Full-bodied, it gets even better: we added cocoa nibs and just a tiny touch of East by boosting the aroma with some sweet & spicy notes of Cardamom. We wouldn't dare to call ourselves an imperial force, but despite that, we feel powerful. It is the power of brewing such potent dark beer. In a word: as dangerous as Cossack's whip!

INGREDIENTS

Water, barley malt, cocoa nibs, hops, yeast, cardamom seeds.

CAN 330ml

INTRUDER

* DOUBLE DISTILLED GIN | 40%VOL.*

Folks, this is a double-distilled gin produced by double distillation of our beer, with the second distillation with juniper, coriander, and cardamom! The distiller gave a final touch by combining distillates of cardamom, chamomile, and citrus. IT IS A GREAT GIN! We love beer the most, but it feels good sometimes to spice it up. We've agreed that this Giant should stay with us in the brewery and that from now on, we will brew gin regularly!

INGREDIENTS

Double-distilled gin with juniper berries, aromatic herbs and citrus.
